

Clean Version of Amended Claims

sub B1
a1

Claim 1. (AMENDED) A system for providing instructions for substantially immovable equipment at an inaccessible location, comprising:

(A) a permanently spatially fixed memory device affixed to the equipment, the instructions residing on the memory device; and

(B) a portable memory reading device, separate from the memory device, that retrieves the instructions from the memory device and communicates the instructions to a user of said portable memory reading device.

a2

Claim 16. (AMENDED) A system for providing information of at least one substantially immovable dedication at an inaccessible location, the information including details concerning reasons for the dedication, comprising:

(A) a permanently spatially fixed memory device affixed proximate to the dedication, the dedication information residing on the memory device; and

(B) a portable memory reading device, separate from the memory device, that retrieves the dedication information from the memory device and communicates the dedication information to a user of said portable memory reading device.

Sub B1
Claim 29. (AMENDED) An information generator for use at an inaccessible location,
comprising:

A3
a permanently spatially fixed memory device affixed at the inaccessible location,
wherein said memory device includes thereon a plurality of information related to the
inaccessible location;

a portable memory reading device, wherein said portable memory reading device
is physically separate from said memory device, wherein said portable memory reading
device is communicatively connected to said memory device; and

wherein, upon establishing a communicative connection with said memory device
at a request of at least one user, said portable memory reading device receives the
plurality of information for display to the user.

A4
Claim 41. (AMENDED) A method for providing information related to an inaccessible
location to the inaccessible location, wherein the inaccessible location is at least one selected
from the group consisting of a cemetery site, a dedication site, an equipment site, and a
historically notable site, comprising:

(A) storing the information on a permanently spatially fixed memory device in
a format that can be retrieved from the memory device and displayed to a user using a
portable memory reading device separate from the memory device, upon request of the

a4
user on the portable memory reading device while in proximity to the memory device;

and

(B) substantially immovably affixing the memory device at the inaccessible location.
